Notes to Consolidated Financial Statements

Three Month and Nine Month Period Ended September 30, 2000

(U.S. Dollars)

(Unaudited)

1. BASIS OF PRESENTATION

These unaudited financial statements have been prepared in accordance with generally accepted accounting principles in the United States for interim financial information. These financial statements are condensed and do not include all disclosures required for annual financial statements. The organization and business of the Company, accounting policies followed by the Company and other information are contained in the notes to the Company's audited consolidated financial statements filed as part of the Company's December 31, 1999 Form 10-SB.

In the opinion of the Company's management, these financial statements reflect all adjustments necessary to present fairly the Company's consolidated financial position at September 30, 2000 and the consolidated results of operations and the consolidated statement of cash flows for the three months and nine months then ended. The results of operations for the three months and nine months ended September 30, 2000 are not necessarily indicative of the results to be expected for the entire fiscal year.

2. STOCK SPLIT

On August 16, 2000, the Company split its stock on a 3 for 1 basis. All of the shares and per share amounts presented in these financial statements are as if the stock split had occurred prior to the beginning of the periods presented.

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

(All figures are in thousands of US dollars)

The Company's much anticipated Poker software is expected to be released in early October 2000. Due to this rescheduling the expected sales have been delayed. The delivery of the new software program will allow the sales department to increase revenues from the sale of new Poker card room licenses.

The company is also negotiating with Starnet Systems International Inc. to acquire licensing rights to resell the Starnet system software. The Starnet software will provide the company with the ability to sell a Sports Book and a full suite of state of the art Casino games in both Java script and in a downloadable format. If an agreement can be completed by the end of October 2000, the first sub-license utilizing the Starnet systems should be ready for operation by November 2000.

Revenues from banner advertising have been gradually increasing and are expected to continue to generate increased revenues in the fourth quarter.

The company is currently working on the redesign of the company's online portal. Improved traffic will result in increased revenues from both advertising in casino and card room sales.

RESULTS OF CONTINUING OPERATIONS

</TABLE>

Liquidity and Capital Resources.

Three-month period ended September 30, 2000 and 1999.

NET SALES. Net sales for the three-months ended September 30, 2000 were \$166 compared to \$0 for the three-months ended September 30, 1999 as the Company had just begun operations at that time. Sub-license revenues were \$7, banner advertising revenues were \$90 and royalty fees were \$69 for the three months ended September 30, 2000 respectively.

The Company believes that royalty revenues from casinos and the new Poker card room software will substantially improve the gross revenues for the next quarter. These are forward-looking statements, particularly as related to the business plan of the company, within the meaning of Section 27A of the Securities Act of 1933 and Sections 21E of the Securities Exchange Act of 1934 and are subject to the safe harbor created by these sections. Actual results may differ materially from the company's expectations and estimates.

GROSS MARGIN. Gross margin was 90% of net sales for the three months ended September 30, 2000. Management believes the margin is consistent with licensing and marketing of turnkey Internet gaming systems. Poker.com's gross margin may be affected by several factors including (i) the mix of revenue streams, (ii) the price of products sold and (iii) other components of cost of sales.

OPERATING EXPENSES. Operating expenses were \$164 and \$36 for the three-month period ended September 30, 2000 and 1999 respectively and \$910 and \$221 for the nine-month period ended September 30, 2000 and 1999, respectively. The increase in the 2000 periods is mainly due to website marketing and corporate promotion that was consistent with Poker's aggressive marketing campaign.

DEPRECIATION AND AMORTIZATION EXPENSE. Depreciation and amortization expense was \$53 and \$0 for the three-month period ended September 30, 2000 and 1999 respectively and \$120 and \$0 for the nine-month periods ended September 30, 2000 and 1999, respectively. The increase in expenses for the three-month period ended September 30, 2000 is due to an accelerated write down of \$46 for casino software the Company believes to be obsolete.

PROVISION FOR INCOME TAXES. No tax provision was made for the three-month period ended September 30, 2000. The Company, at December 31, 1999 has available a net operating loss carry forward of approximately \$400 that may be used to offset future United States federal taxable income. The net operating loss carry forward if not utilized will begin to expire in 2018.

FINANCIAL CONDITION AND LIQUIDITY

LIQUIDITY AND CAPITAL RESOURCES. At September 30, 2000 the Company had cash and cash equivalents totaling \$79 compared to \$61 at June 30, 1999. Poker.com's principal source of liquidity is \$79 in cash and cash equivalents.

Approximately \$206 of the \$342 accounts receivable and long term receivable was due from Antico Holdings S.A. for the purchase of a Poker sub-license and royalty fees. The amount due from Antico Holdings for their License fee is payable in equal installments over a period of three years. Antico Holdings has assigned to Poker.com Inc the 15% credit card hold back which started to be released on a monthly basis, which began July 15th 2000.

Net cash (used) by operating activities for the nine-month period ended September 30, 2000 was (\$206). The decrease in cash was mainly due to increase in accounts receivable of \$99 to \$342 from December 31, 2000. This is due to royalty revenue, banner advertising and sale of casino license fees being accrued.

Net cash (used) for investing activities for the six-month period ended September 30, 2000 was (\$36). The cash was used for the purchase of additional capital assets and casino software.
