NOTE REGARDING FORWARD LOOKING STATEMENTS

This Annual Report on Form 10-K contains statements that constitute "forward-looking statements." These forward-looking statements can be identified by the use of predictive, future-tense or forward-looking terminology like "believes," "anticipates," "expects," "estimates," "may," or similar terms. These statements appear in a number of places in this annual report and include statements regarding the Company's intent, belief or current expectations and those of its directors or officers with respect to, among other things: (i) trends affecting its financial condition or results of operations, (ii) its business and growth strategies, and (iii) its financing plans. You are cautioned that forward-looking statements are not guarantees of future performance and involve significant risks and uncertainties, and that actual results may differ materially from those projected in the forward-looking statements as a result of various factors. Factors that could adversely affect actual results and performance include, among others, the Company's need for additional capital, its history of losses, the intense competition the Company faces in its business, the fact that its stock is a "penny stock" and the other material risks described under "Risk Factors". The accompanying information contained in this annual report, including, without limitation, the information set forth under the heading "Item 1. Business" identifies important additional factors that could materially adversely affect actual results and performance. You are urged to carefully consider these factors. All forward-looking statements attributable to us are expressly qualified in their entirety by the foregoing cautionary statement.

Item 1. Business

Overview

The Company was incorporated under the laws of the State of Florida on May 3, 1989 as Sparta Ventures Corp. and remained inactive until June 27, 1998. The name of the Company was changed to Thermal Ablation Technologies Corporation on October 8, 1998 and then to Poker.com, Inc. on August 10, 1999. On September 15, 2003, the Company changed its name to LegalPlay Entertainment Inc. and on November 8, 2006, the name of the Company was changed to Synthenol Inc.

Effective November 3, 2008, the Company merged with and into its wholly-owned subsidiary, SinoCubate, Inc., which remained the surviving entity of the merger. SinoCubate was formed in the State of Nevada on September 11, 2008. The merger resulted in a change of name of the Company from Synthenol, Inc. to SinoCubate, Inc. and a change in the state of incorporation of the Company from Florida to Nevada.

Business

The Company's business from 1999 through December 31, 2003 was primarily related to the operations of online gaming. In 2004, the Company discontinued the online gaming operations and redirected its business strategy to acquisition and marketing of new poker software to on-line gaming websites worldwide. The Company's current business plan consists of exploring opportunities to enter into a contractual arrangement with an entity that enables the Company to either purchase outright the assets and/or business operations of such entity or to enter into business arrangements, such as joint ventures or similar combinations with such entity in order to manage and operate such entity.

On December 19, 2009, Viking Investments, LLC, an entity controlled and managed by Tom Simeo, the Company's chairman, chief executive officer and president, announced a strategic partnership with Viking, whereby Viking, in exchange for a fee, and SinoCubate will work together and assist various business entities in the Peoples Republic of China or the PRC in their endeavors to become publicly listed companies in the United States. In connection with the strategic agreement, the Company was to newly issue 4,750,000 shares of the Company's common stock to Viking in exchange for One Hundred Thousand (100,000) shares of common stock of Renhuang Pharmaceuticals, Inc. or Renhuang owned by Viking, and newly issue 15,000,000 shares of the Company's common stock to Viking in exchange for entry into the strategic partnership agreement. In connection with the foregoing transactions, Philip Wan and Yung Kong Chin were appointed directors and officers of the Company and were each granted warrants to purchase 50,000 shares of common stock of the Company at an exercise price of \$0.26 per share exercisable in whole or in part at any time during the 3 years after issuance. Effective, March 26, 2010, the parties elected to terminate the strategic partnership agreement and the directors and officers appointed thereby, Messrs. Wan and Chin, resigned as directors and officers of the Company and agreed not to exercise their warrants to purchase the Company's shares. The Company has subsequently cancelled the warrants. No shares were issued to Viking and neither the Company nor Viking has monetary or other demand on the other related to the cancellation.

As of the date of this Report, the Company has not entered into an agreement with any entity and there can be no assurance that the Company will ever be able to identify and enter into an agreement with an entity or whether, if the Company successful enters into an agreement with a suitable entity, such combination may become successful and/or profitable.

Item 1A. Risk Factors

There are several material risks associated with the Company. You should carefully consider the risks and uncertainties described below, which all constitute material risks relating to the Company. If any of the following risks are realized, the Company's business, operating results and financial condition could be harmed. This means investors could lose all or a part of their investment.

Conflicts of Interest

Certain conflicts of interest may exist between the Company and its sole officer and director and its principal shareholder, Viking. The Company's sole officer and director, Tom Simeo is also the principal of Viking and has other business interests to which he devotes his attention, and he may devote only limited time to the business of the Company. As a result, conflicts of interest may arise that can be resolved only through exercise of such judgment as is consistent with fiduciary duties to the Company. See "Certain Relationships and Related Transactions."

Need for Additional Financing

The Company currently has little or no funds and the lack of funds may negatively impact the Company's ability to pursue its business strategy of seeking to acquire or enter into contractual arrangements with an entity to either acquire such entity or to enter into a contract arrangement that will enable the Company to manage such an entity. Even if the Company's funds prove to be sufficient to acquire an interest in, or complete a transaction with, an entity, the Company may not have enough capital to exploit the opportunity. The ultimate success of the Company may depend upon its ability to raise additional capital. The Company may investigate the availability, source, or terms that might govern the acquisition of additional capital but will not do so until it determines a need for additional financing. If additional capital is needed, there is no assurance that funds will be available from any source or, if available, that they can be obtained on terms acceptable to the Company. If not available, the Company's operations will be limited to those that can be financed with its modest capital.

Regulation of Penny Stocks

The Company's securities may be subject to a SEC rule that imposes special sales practice requirements upon broker-dealers who sell such securities to persons other than established customers or accredited investors. For purposes of the rule, the phrase "accredited investors" means, in general terms, institutions with assets in excess of \$5,000,000, or individuals having a net worth in excess of \$1,000,000 or having an annual income that exceeds \$200,000 (or that, when combined with a spouse's income, exceeds \$300,000). For transactions covered by the rule, the broker-dealer must make a special suitability determination for the purchaser and receive the purchaser's written agreement to the transaction prior to the sale. Consequently, the rule may affect the ability of broker-dealers to sell the Company's securities and also may affect the ability of purchasers in this offering to sell their securities in any market that might develop.

In addition, the SEC has adopted a number of rules to regulate "penny stocks." Such rules include Rules 3a51-1, 15g-1, 15g-2, 15g-3, 15g-4, 15g-5, 15g-6, 15g-7, and 15g-9 under the Securities Exchange Act of 1934, as amended or the Exchange Act. Because the securities of the Company may constitute "penny stocks" within the meaning of the rules, the rules would apply to the Company and to its securities. The rules may further affect the ability of owners of shares to sell the securities of the Company in any market that might develop for them.

Shareholders should be aware that, according to SEC, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. Such patterns include (i) control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer; (ii) manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases; (iii) "boiler room" practices involving high-pressure sales tactics and unrealistic price projections by inexperienced sales persons; (iv) excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and (v) the wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the resulting inevitable collapse of those prices and with consequent investor losses.

Lack of Operating History

The majority interest in the Company was purchased in August 2008 for the purpose of seeking a business opportunity. Due to the special risks inherent in the investigation, acquisition, or involvement in a new business opportunity, the Company must be regarded as a new or start-up venture with all of the unforeseen costs, expenses, problems, and difficulties to which such ventures are subject.

No Assurance of Success or Profitability

There is no assurance that the Company will be able to acquire or consummate a favorable business opportunity. Even if the Company should become involved in a business opportunity, there is no assurance that it will generate revenues or profits, or that the market price of the Company's common stock will be increased thereby.

Possible Business – Not Identified and Highly Risky

The Company has not identified and has no commitments to enter into or acquire a specific business opportunity and therefore can only disclose the risks and hazards of a business or opportunity that it may enter into in only a general manner, and cannot disclose the risks and hazards of any specific business or opportunity that it may enter into. An investor can expect a potential business opportunity to be quite risky. The Company's acquisition of or participation in a business opportunity will likely be highly illiquid and could result in a total loss of investment to the Company and its stockholders if the business or opportunity proves to be unsuccessful. See Item 1 "Business."

Type of Business Acquired

The type of business to be acquired may be one that desires to avoid effecting its own public offering and the accompanying expense, delays, uncertainties, and federal and state requirements which purport to protect investors. Because of the Company's limited capital, it is more likely than not that any acquisition by the Company will involve other parties whose primary interest is the acquisition of control of a publicly traded company. Moreover, any business opportunity acquired may be currently unprofitable or present other negative factors.

Impracticality of Exhaustive Investigation

The Company has limited or no funds and, this, coupled with the lack of full-time management will likely make it impracticable to conduct a complete and exhaustive investigation and analysis of a business opportunity before the Company commits its capital or other resources to such venture. Decisions will therefore likely be made without detailed feasibility studies, independent analysis, market surveys and the like which, if the Company had more funds available to it, would be desirable. The Company will be particularly dependent in making decisions upon information provided by the promoter, owner, sponsor, or others associated with the business opportunity seeking the Company's participation. A significant portion of the Company's available funds may be expended for investigative expenses and other expenses related to preliminary aspects of completing an acquisition transaction, whether or not any business opportunity investigated is eventually acquired.

Lack of Diversification

Because of the limited financial resources that the Company has, it is unlikely that the Company will be able to diversify its acquisitions or operations. The Company's probable inability to diversify its activities into more than one area will subject the Company to economic fluctuations within a particular business or industry and therefore increase the risks associated with the Company's operations.

Reliance upon Financial Statements

The Company generally will require audited financial statements from companies that it proposes to acquire or to which it seeks to enter into a contractual arrangement. In cases where no audited financials are available, the Company will have to rely upon interim period unaudited information received from a target company's management that has not been verified by outside auditors. The lack of the type of independent verification which audited financial statements would provide increases the risk that the Company, in evaluating an acquisition or contractual arrangement with such a target company, will not have the benefit of full and accurate information about the financial condition and recent interim operating history of the target company. This risk increases the prospect that the acquisition of or the contractual arrangement with such a company might prove to be an unfavorable one for the Company or the holders of the Company's securities.

Moreover, the Company will be subject to the reporting provisions of the Exchange Act, and thus will be required to furnish certain information about significant acquisitions or contractual arrangements, including audited financial statements for any business that it acquires or with which it enters into a contractual arrangement for control. Consequently, prospects that do not have, or are unable to provide reasonable assurances that they will be able to obtain, the required audited statements would not be considered by the Company to be appropriate for an acquisition so long as the reporting requirements of the Exchange Act are applicable. Should the Company, during the time it remains subject to the reporting provisions of the Exchange Act, complete an acquisition or enters into a contract for control of an entity for which audited financial statements prove to be unobtainable, the Company would be exposed to enforcement actions by the SEC and to corresponding administrative sanctions, including permanent injunctions against the Company and its management. The legal and other costs of defending an SEC enforcement action would have material, adverse consequences for the Company and its business. The imposition of administrative sanctions would subject the Company to further adverse consequences. In addition, the lack of audited financial statements would prevent the securities of the Company from becoming eligible for listing on NASDAQ, or on any existing stock exchange.

Moreover, the lack of such financial statements is likely to discourage broker-dealers from becoming or continuing to serve as market makers in the securities of the Company. Without audited financial statements, the Company would almost certainly be unable to offer securities under a registration statement pursuant to the Securities Act of 1933 or the Securities Act, and the ability of the Company to raise capital would be significantly limited until such financial statements were to become available.

Other Regulation

An acquisition or a contractual arrangement for control of an entity made by the Company may be of a business that is subject to rules and regulation by federal, state, local or foreign authorities. Compliance with such rules and regulations can be expected to be a time-consuming, expensive process and may limit other opportunities of the Company.

Limited Participation of Management

The Company is heavily dependent upon the skills, talents, and abilities of its sole officer and director, Mr. Simeo, who currently serves on a very limited-time basis, to manage and implement its business plan.

Lack of Continuity in Management

The Company does not have any employment agreements with its sole officer, Mr. Simeo, and as a result, there is no assurance Mr. Simeo will continue to be associated with the Company in the future. In connection with acquisition of a business opportunity, it is likely that Mr. Simeo may resign as an officer and director of the Company subject to compliance with Section 14f of the Exchange Act. A decision to resign will be based upon the identity of the business opportunity and the nature of the transaction, and is likely to occur without the vote or consent of the stockholders of the Company.

No Independent Audit Committee

The Company does not have an independent Audit Committee of its Board of Directors. The entire Board of Directors functions as the Company's Audit Committee. The Sarbanes-Oxley Act of 2002, as amended or the SOX and rules and regulations adopted by the SEC to implement the SOX impose certain standards on listed companies relative to the maintenance and operations of Board of Directors Audit Committees, including but not limited to the requirement that Audit Committees be appointed, that membership of such committees comprise only independent directors, that a financial professional be among the membership of such committee and that such committee be afforded an adequate operating budget and be able to employ independent professional advisors. The SOX also requires that the Audit Committee oversee the work of a company's outside auditors and that the outside auditors be responsible to the Audit Committee. At this time, the Company is not in compliance with the requirements of the Sarbanes-Oxley Act as they relate to independent Board of Directors Audit Committees. The Company believes that under rules and regulations adopted by the SEC to implement these provisions of the SOX it is not required to comply with its requirements relating to the appointment of an Audit Committee of its Board of Directors and conforming with the enumerated standards and guidelines because the Company is not a "Listed Company" as defined therein. Notwithstanding, the Company may ultimately be determined not to be in compliance therewith and may therefore face penalties and restrictions on its operations until it comes into full compliance. Additionally, the Company's failure to comply with the provisions of the SOX could preclude it from being listed on NASDAQ or any other stock exchanges until it can show that it is in compliance. The Company's failure to be in compliance with the SOX could also present an impediment to a potential business combination where the target company intends that the Company apply for listing on NASDAQ or any other applicable stock exchanges.

Indemnification of Officers and Directors

Nevada statutes provide for the indemnification of the Company's directors, officers, employees, and agents, under certain circumstances, against attorney's fees and other expenses incurred by them in any litigation to which they become a party arising from their association with or activities on behalf of the Company. The Company will also bear the expenses of such litigation for any of its directors, officers, employees, or agents, upon such person's promise to repay the Company if it is ultimately determined that any such person shall not have been entitled to indemnification. This indemnification policy could result in substantial expenditures by the Company which it may be unable to recoup.

Dependence upon Outside Advisors

To supplement the Company's officers, directors and principal shareholders, the Company may be required to employ accountants, technical experts, appraisers, attorneys, or other consultants or advisors. The selection of any such advisors will be made by the Company without any input from stockholders. Furthermore, it is anticipated that such persons may be engaged on an "as needed" basis without a continuing fiduciary or other obligation to the Company. In the event the Company considers it necessary to hire outside advisors, such persons may be affiliates of the Company, if they are able to provide the required services.

Competition

The search for potentially profitable business opportunities of the type sought by the Company is intensely competitive. The Company expects to be at a disadvantage when competing with many firms that have substantially greater financial and management resources and capabilities than the Company. These competitive conditions will exist in any industry in which the Company may become interested.

No Foreseeable Dividends

The Company has not paid dividends on its common stock and does not anticipate paying such dividends in the foreseeable future.

Loss of Control by Present Management and Shareholders

The Company may consider an acquisition in which the Company would issue as consideration for the business opportunity to be acquired an amount of the Company's authorized but unissued common stock that would, upon issuance, represent the great majority of the voting power and equity of the Company. The result of such an acquisition would be that the acquired company's stockholders and management would control the Company, and the Company's Board of Directors and management could be replaced by persons unknown at this time. Such a merger would result in a greatly reduced percentage of ownership of the Company by its current shareholders.

Rule 144 Sales

The majority of the outstanding shares of common stock held by present stockholders are “restricted securities” within the meaning of Rule 144 under the Securities Act. As restricted shares, these shares may be resold only pursuant to an effective registration statement or under the requirements of Rule 144 or other applicable exemptions from registration under the Securities Act and as required under applicable state securities laws. Rule 144 in general requires restricted securities to be held for a particular length of time, and prescribes the conditions which must be satisfied prior to the sale of the securities. Under new amendments to Rule 144, if an issuer of securities, such as the Company, has been subject to reporting requirements of Section 13 or 15(d) of the Exchange Act for at least 90 days, then the restricted securities of such issuer are subject to a six-month holding period. Under the amendments, a non-affiliate that has held restricted securities of a reporting issuer for more than six months but less than one year can resell the securities in reliance on Rule 144, if current information is available for the issuer. After one year, the non-affiliate may freely resell the restricted securities without regard to any Rule 144 condition. A non-affiliate of a non-reporting issuer must hold the securities for one year before any public resale. After one year, a non-affiliate may freely resell such securities without regard to Rule 144 conditions. Under the new amendments, Rule 144 is not available for the resale of securities initially issued by a shell company (reporting or non-reporting) or a former shell company unless certain conditions detailed under Rule 144 are met. A sale under Rule 144 or under any exemption from the Securities Act, if available, or pursuant to subsequent registration of shares of common stock of present stockholders, may have a depressive effect upon the price of the Company’s common stock.

Other Information

Neither the Company nor any of its subsidiaries engaged in any research and development activities during 2009. The Company does not manufacture any products or engage in any activity that requires compliance with environmental laws.

Employees

The Company currently does not have any employees other than the Company’s sole officer, Mr. Simeo.

Reports to Securities Holders

The Company provides an annual report that includes its audited financial information to its shareholders upon written request. The Company also makes its financial information equally available to any interested parties or investors through compliance with the disclosure rules of the Exchange Act. The Company is subject to disclosure filing requirements including filing a Form 10-K annually and Form 10-Q quarterly. In addition, the Company will file Form 8-K and other proxy and information statements from time to time as required.

The public may read and copy any materials that the Company files with the SEC at the SEC's Public Reference Room at 100 F Street NE, Washington, DC 20549. The public may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site (<http://www.sec.gov>) that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC.

The future sale of the Company's presently outstanding "unregistered" and "restricted" common stock by present members of management and persons who own more than five percent of the Company's outstanding voting securities may have an adverse effect on any "established trading market" that may develop in the shares of the Company's common stock.

Holders

As of December 31, 2009, the Company had 34 shareholders of record of common stock, including shares held by brokerage clearing houses, depositories or otherwise in unregistered form. The Company does not know the beneficial owners of such shares.

Item 6. Selected Financial Data

The Company, as a smaller reporting company (as defined by Rule 12b-2 of the Exchange Act), is not required to furnish information required by this item.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

You should read the following discussion and analysis in conjunction with the audited consolidated financial statements and notes thereto appearing elsewhere in this annual report on Form 10-K.

In preparing the management's discussion and analysis, the registrant presumes that you have read or have access to the discussion and analysis for the preceding fiscal year.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This document includes “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, as amended or the Reform Act. All statements other than statements of historical fact are “forward-looking statements” for purposes of federal and state securities laws, including, but not limited to, any projections of earning, revenue or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements concerning proposed new services or developments; any statements regarding future economic conditions of performance; and statements of belief; and any statements of assumptions underlying any of the foregoing. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. Such factors include, among others, the following: the Company’s ability to raise capital and the terms thereof; and other factors referenced in the Form 10-K.

The use in this Form 10-K of such words as “believes”, “plans”, “anticipates”, “expects”, “intends”, and similar expressions are intended to identify forward-looking statements, but are not the exclusive means of identifying such statements. These forward-looking statements present the Company’s estimates and assumptions only as of the date of this report. Except for the Company’s ongoing obligation to disclose material information as required by the federal securities laws, the Company does not intend, and undertakes no obligation, to update any forward-looking statements.

Although the Company believes that the expectations reflected in any of the forward-looking statements are reasonable, actual results could differ materially from those projected or assumed or any of the Company’s forward-looking statements. The Company’s future financial condition and results of operations, as well as any forward-looking statements, are subject to change and inherent risks and uncertainties.

PLAN OF OPERATIONS

Overview

The Company’s business plan is to seek, investigate, and, if warranted, enter into contractual arrangements with entities that enables the Company to either purchase outright the assets and and/or business operations of such entities or to enter into business arrangements, such as joint ventures or similar combinations with such entities to manage and operate such entities as affiliated entities of the Company.

As of the date of this Report, the Company has not entered into an agreement with any such entity and there can be no assurance that the Company will ever be able to identify and enter into an agreement with an entity or whether, if the Company successful enters into an agreement with an entity, such combination may become successful and/or profitable.

The Company is in immediate need of further working capital and options are being explored with respect to financing in the form of debt, equity or a combination thereof.

Investigation and Selection of Business Opportunities

To a large extent, a decision to participate in a specific contractual arrangement may be made upon the analysis of the quality of the other company’s management and personnel, the anticipated acceptability of new products or marketing concepts, the merit of technological changes, the perceived benefit the Company will derive from entering into such an arrangement, and numerous other factors which are difficult, if not impossible, to analyze through the application of any objective criteria. In many instances, it is anticipated that the historical operations of a specific business opportunity may not necessarily be indicative of the potential for the future because of the possible need to access capital, shift marketing approaches substantially, expand significantly, change product emphasis, change or substantially augment management, or make other changes. The Company will be dependent upon the owners of a business opportunity to identify any such problems which may exist and to implement, or be primarily responsible for the implementation of, required changes. Because the Company may participate in a business opportunity with a newly organized firm or with a firm which is entering a new phase of growth, it should be emphasized that the Company will incur further risks, because management in many instances will not have proved its abilities or effectiveness, the eventual market for such company’s products or services will likely not be established, and such company may not be profitable when acquired.

It is emphasized that the Company may effect transactions having a potentially adverse impact upon the Company's shareholders pursuant to the authority and discretion of the Company's management and board of directors without submitting any proposal to the stockholders for their consideration. Holders of the Company's securities should not anticipate that the Company will necessarily furnish such holders, prior to any contractual arrangement or combination, with financial statements, or any other documentation, concerning a target company or its business. In some instances, however, a proposed arrangement may be submitted to the stockholders for their consideration, either voluntarily by such directors to seek the stockholders' advice and consent or because federal and/or state law so requires.

The Company is unable to predict when it may participate in a business opportunity. Prior to making a decision to participate in a business opportunity, the Company will generally request that it be provided with written materials regarding the business opportunity containing such items as a description of products, services and company history; management resumes; financial information; available projections, with related assumptions upon which they are based; an explanation of proprietary products and services; evidence of existing patents, trademarks, or services marks, or rights thereto; present and proposed forms of compensation to management; a description of transactions between such company and its affiliates during relevant periods; a description of present and required facilities; an analysis of risks and competitive conditions; a financial plan of operation and estimated capital requirements; audited financial statements, or if they are not available, unaudited financial statements, together with reasonable assurances that audited financial statements would be able to be produced within a reasonable period of time following completion of a merger transaction; and other information deemed relevant.

As part of the Company's investigation, the Company's officers may meet personally with management and key personnel of the target entity may visit and inspect material facilities, obtain independent analysis or verification of certain information provided, check references of management and key personnel, and take other reasonable investigative measures, to the extent of the Company's limited financial resources.

There are no loan arrangements or arrangements for any financing whatsoever relating to any business opportunities currently available.

Going Concern Qualification

The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern but considers that the Company will be able to obtain additional funds by equity financing and/or related party advances; however there is no assurance of additional funding being available.

Results of Operations

Year ended December 31, 2009 Compared to Year ended December 31, 2008

General Description

The Company's business strategy is to seek to enter into contractual arrangements with entities that enables the Company to either purchase outright the assets and/or business operations of such entities or to enter into business arrangements, such as joint ventures or similar combinations with such entities to manage and operate such entities.

General and Administrative Operating Expenses

The total general and administrative operating expenses for the Company were \$52,024 in fiscal 2009, compared to \$147,325 in fiscal 2008. The decrease was primarily due to no management and consultant fees in relation to the Company's operations and no interest on notes payment in fiscal 2009 compared to fiscal 2008.

Net Income

The Company incurred a net loss of \$52,024 for the fiscal year ended December 31, 2009 as compared with net income of \$79,122 for the fiscal year ended December 31, 2008. This decrease of \$ 131,146 was mainly due to the realization of gains on debt forgiveness in 2008.

Liquidity and Capital Resources

At December 31, 2009 and December 31, 2008, the Company had no working capital. At December 31, 2009 and December 31, 2008, the Company had no cash holding. The Company is in immediate need of further working capital and it may consider options with respect to financing in the form of debt, equity or a combination thereof.

Off Balance Sheet Arrangements

The Company does not have any off balance sheet arrangements that have or are reasonably likely to have a current or future effect on its financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity or capital expenditures or capital resources that is material to an investor in the Company's securities.

Seasonality

Our operating results are not affected by seasonality.

Inflation

Our business and operating results are not affected in any material way by inflation.

AUDITED FINANCIAL STATEMENTS

December 31, 2009

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of
SinoCubate, Inc.
(A Development Stage Company)

We have audited the accompanying balance sheets of SinoCubate, Inc. (the "Company") as at December 31, 2009 and 2008 and the related statements of operations, comprehensive loss, cash flows and changes in stockholders' deficiency for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits. We did not audit the financial statements of the Company from the date of inception to December 31, 2007, which statements reflect cumulative total assets of \$66,273 and cumulative expenses of \$1,057,305 for the period from inception to December 31, 2007. Those statements were audited by another auditor whose report has been furnished to us, and our opinion, insofar as it relates to the cumulative financial information from inception of the development stage on January 1, 2004 to December 31, 2007, is based solely on the report of the other auditor.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, based on our audits and the report of the other auditor, these financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2009 and 2008 and the results of its operations and its cash flows for the years ended December 31, 2009 and 2008 and for the period from inception of the development stage on January 1, 2004 to December 31, 2009 in conformity with generally accepted accounting principles in the United States of America.

The Company is not required to have nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal controls over financial reporting. Accordingly, we express no such opinion.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in note 1 to the financial statements, the Company is a development stage company and has no established source of revenues. These conditions raise substantial doubt about its ability to continue as going concern. The financial statements do not include any adjustments that might result from the outcome of these uncertainties.

SINOCUBATE INC.
(A Development Stage Company)
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

Note 1 Financial Statements and Going Concern Assumption

These audited financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these audited financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At December 31, 2009, the Company has accumulated losses of \$2,335,661 since its inception and expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern but considers that the Company will be able to obtain additional funds by equity financing and/or related party advances; however there is no assurance of additional funding being available.

Note 2 Nature of business

Since November 2008, the Company has sought to enter into contractual arrangements with entities that allows the Company to either purchase outright the assets and/or business operations of such entities or to enter into business arrangements, such as joint ventures or similar combinations with such entities to manage and operate such entities. The Company is a development stage company as defined by the Financial Accounting Standards Board *Accounting Standards Codification*, or FASB ASC 915, "Development Stage Entities."

The Company was incorporated under the laws of the State of Florida on May 3, 1989 as Sparta Ventures Corp. and remained inactive until June 27, 1998. The name of the Company was changed to Thermal Ablation Technologies Corporation on October 8, 1998 and then to Poker.com, Inc. on August 10, 1999. On September 15, 2003, the Company changed its name to LegalPlay Entertainment Inc. and on November 8, 2006, the name of the Company was changed to Synthenol Inc. Effective November 3, 2008, the Company merged with and into a wholly-owned subsidiary, SinoCubate, Inc., which remained the surviving entity of the merger. SinoCubate was formed in the State of Nevada on September 11, 2008. The merger resulted in a change of name of the Company from Synthenol Inc. to SinoCubate, Inc. and a change in the state of incorporation of the Company from Florida to Nevada.

On December 19, 2009, Viking Investments, LLC, an entity controlled and managed by Tom Simeo, the Company's chairman, chief executive officer and president, announced a strategic partnership with Viking, whereby Viking, in exchange for a fee, and SinoCubate will work together and assist various business entities in the Peoples Republic of China or the PRC in their endeavors to become publicly listed companies in the United States. In connection with the strategic agreement, the Company was to newly issue 4,750,000 shares of the Company's common stock to Viking in exchange for One Hundred Thousand (100,000) shares of common stock of Renhuang Pharmaceuticals, Inc. or Renhuang owned by Viking, and newly issue 15,000,000 shares of the Company's common stock to Viking in exchange for entry into the strategic partnership agreement. In connection with the foregoing transactions, Philip Wan and Yung Kong Chin were appointed directors and officers of the Company and were each granted warrants to purchase 50,000 shares of common stock of the Company at an exercise price of \$0.26 per share exercisable in whole or in part at any time during the 3 years after issuance. Effective, March 26, 2010, the parties elected to terminate the strategic partnership agreement and the directors and officers appointed thereby, Messrs. Wan and Chin, resigned as directors and officers of the Company and agreed not to exercise their warrants to purchase the Company's shares. The Company has subsequently cancelled the warrants. No shares were issued to Viking and neither the Company nor Viking has monetary or other demand on the other related to the cancellation.

SINOCUBATE INC.
(A Development Stage Company)
NOTES TO FINANCIAL STATEMENTS
December 31, 2009 and 2008

As of the date of this Report, the Company has not entered into an agreement with any entity and there can be no assurance that the Company will ever be able to identify and enter into an agreement with an entity or whether, if the Company successful enters into an agreement with a suitable entity, such combination may become successful and/or profitable.

Note 3 Summary of Significant Accounting Policies

a) Basis of Presentation

The financial statements of the Company have been prepared in accordance with GAAP and are expressed in U.S. dollars. The Company's fiscal year-end is December 31.

b) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts and timing of revenues and expenses, the reported amounts and classification of assets and liabilities, and disclosure of contingent assets and liabilities. The Company's actual results could vary materially from management's estimates and assumptions. Significant areas requiring the use of management estimates relate to the determination expected tax rates for future income tax recoveries and the warrants.

c) Other Comprehensive Income

FASB ASC 220 "Comprehensive Income," establishes standards for the reporting and display of comprehensive income and its components in the financial statements. For the fiscal years ended December, 2009 and 2008, comprehensive income (loss) was (\$52,024) and \$73,909, respectively.

d) Income Taxes

The Company uses the asset and liability method of accounting for income taxes pursuant to FASB ASC 740 "Income Taxes". Under this method, deferred income tax assets and liabilities are recognized for the future tax consequences attributable to temporary differences between the financial statements carrying amounts of assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

e) Stock-Based Compensation

The Company may issue stock options to employees and stock options or warrants to non-employees in non-capital raising transactions for services and for financing costs. The Company has adopted ASC Topic 718 (formerly SFAS 123R), "Accounting for Stock-Based Compensation", which establishes a fair value method of accounting for stock-based compensation plans. In accordance with guidance now incorporated in ASC Topic 718, the cost of stock options and warrants issued to employees and non-employees is measured on the grant date based on the fair value. The fair value is determined using the Black-Scholes option pricing model. The resulting amount is charged to expense on the straight-line basis over the period in which the Company expects to receive the benefit, which is generally the vesting period.

The fair value of stock warrants was determined at the date of grant using the Black-Scholes option pricing model. The Black-Scholes option model requires management to make various estimates and assumptions, including expected term, expected volatility, risk-free rate, and dividend yield. The expected term represents the period of time that stock-based compensation awards granted are expected to be outstanding and is estimated based on considerations including the vesting period, contractual term and anticipated employee exercise patterns. Expected volatility is based on the historical volatility of the Company's stock. The risk-free rate is based on the U.S. Treasury yield curve in relation to the contractual life of stock-based compensation instrument. The dividend yield assumption is based on historical patterns and future expectations for the Company dividends.

Assumption used to estimate the fair value of stock warrants on the granted date are as follows:

Issuance Date	Expected volatility	Risk-free rate	Expected term (years)	Dividend yield
December 16, 2009	204.70%	0.11%	3	0.00%

The stock warrants granted during 2009 were exercisable immediately, the fair value on the grant date using the Black-Scholes option pricing model was \$24,020, and have been recorded as compensation costs.

f) Recent Accounting Pronouncements

The Financial Accounting Standards Board (FASB) launched its Accounting Standards Codification (ASC or the Codification), the single source of nongovernmental authoritative generally accepted accounting principles in the United States (U.S. GAAP), and was effective for interim and annual periods ending after September 15, 2009. The Codification is a reorganization of U.S. GAAP into a topical format that eliminates the previous U.S. GAAP hierarchy. References to accounting standards in this Form 10-K refer to the relevant ASC topic. As the Codification was not intended to change or alter existing GAAP, it did not impact the Company's financial condition, results of operations, or cash flows.

In April 2009, the FASB issued three accounting standard updates which were intended to provide additional application guidance and enhanced disclosures regarding fair value measurements and impairments of securities. The first update, as codified in ASC 820-10-65, provides additional guidelines for estimating fair value in accordance with fair value accounting. The second update, as codified in ASC 320-10-65 established a new model for measuring other-than-temporary impairments for debt securities, including establishing criteria for when to recognize a write-down through earnings. The third accounting update, as codified in ASC 825-10-65, increases the frequency of fair value disclosures. These updates were effective for fiscal year and interim periods ending after June 15, 2009. There was no impact to the Company's financial statements as a result of the adoption of these standards.

NOTES TO FINANCIAL STATEMENTS
December 31, 2009

In the second quarter of 2009, the Company adopted a new accounting standard for subsequent events, as codified in ASC 855-10. The updated standard modifies the names of the two types of subsequent events either as recognized subsequent events (previously referred to in practice as Type I subsequent events) or non-recognized subsequent events (previously referred to in practice as Type II subsequent events). In addition, the standard modifies the definition of subsequent events to refer to events or transactions that occur after the balance sheet date, but before the financial statements are issued (for public entities) or available to be issued (for nonpublic entities). The update did not result in significant changes in the practice of subsequent event disclosures, and therefore the adoption did not have an impact on the Company's financial condition, results of operations, or cash flows.

In February 2010, the FASB issued ASU 2010-09, Subsequent Event (Topic 855) which removed the requirement for an SEC filer to disclose a date through which subsequent events have been evaluated in both issued and revised financial statements. The Company has adopted the amendment and did not disclose the date through which subsequent events have been evaluated.

In October 2009, the FASB issued Accounting Standards Update (ASU) No. 2009-13 *Revenue Recognition (ASC 605): Multiple-Deliverable Revenue Arrangement*, which changes the requirements for establishing separate units of accounting in a multiple element arrangement and requires the allocation of arrangement consideration to each deliverable based on the relative selling price. The selling price for each deliverable is based on vendor-specific objective evidence (VSOE) if available, third-party evidence if VSOE is not available, or estimated selling price if neither VSOE or third-party evidence is available. ASU 2009-13 is effective for revenue arrangements entered into in fiscal years beginning on or after June 15, 2010. The Company does not expect the provisions of ASU No. 2010-01 to have a material effect on the financial position, results of operations or cash flows of the Company.

In January 2010, the FASB issued new standards in the ASC 820, *Fair Value Measurements and Disclosures*. These standards required new disclosures on the amount and reason for transfers in and out of Level 1 and 2 fair value measurements. The standards also require disclosure of activities, including purchases, sales, issuances, and settlements within the Level 3 fair value measurements. The standards also clarify existing disclosure requirements on levels of disaggregation and disclosures about inputs and valuation techniques. The new disclosures regarding Level 1 and 2 fair value measurements and clarification of existing disclosures are effective for the Company beginning with its first interim filing in 2010. The disclosures about the rollforward of information in Level 3 are required for the Company with its first interim filing in 2011. The Company does not expect the provisions of ASU No. 2010-01 to have a material effect on the financial position, results of operations or cash flows of the Company.

In January 2010, the FASB issued ASU No. 2010-01, *Equity (ASC 505): Accounting for distributions to Shareholders with Components of Stock and Cash* (A Consensus of the FASB Emerging Issues Task Force). This amendment to ASC 505 clarifies the stock portion of a distribution to shareholders that allow them to elect to receive cash or stock with a limit on the amount of cash that will be distributed is not a stock dividend for purposes of applying ASC 505 and 260. Effective for interim and annual periods ending on or after December 15, 2009, and would be applied on a retrospective basis. The Company does not expect the provisions of ASU No. 2010-01 to have a material effect on the financial position, results of operations or cash flows of the Company.

Note 4 Related Party Transactions

On September 22, 2008, the Company entered into an agreement with Viking, (the Company's majority shareholder which is in turn controlled by and managed by Tom Simeo, the Company's chairman, chief executive officer and president), relating to the issuance of 284,637 new shares of the Company's common stock to Viking in exchange for the release of Synthenol by Viking from an obligation to repay certain outstanding promissory notes and debt of Synthenol owing to Viking in the aggregate amount of \$270,405 (inclusive of principal and interest) as reported on a Current Report on Form 8-K filed with the SEC on September 24, 2008. The amount of the newly issued shares was determined by dividing \$270,405 by \$0.95 which price is equal to the price per share Viking paid for certain shares of Synthenol common stock pursuant to a stock purchase agreement dated as of August 15, 2008 described under Note 2. The transaction was recorded at exchange values.

On April 3, 2009, the Company entered into an agreement with Viking, providing that effective August 15, 2008, Viking will pay for any services performed on behalf of the Company by third parties until such time that Viking is no longer the majority shareholder of the Company.

December 31, 2009 and 2008

For the fiscal year ended December 31, 2009, Viking assumed professional and other service fee in the aggregate amount of \$28,004 on its own. For the fiscal year ended December 31, 2008, Viking assumed professional and other service fee in the aggregate amount of \$32,000 on its own.

On December 19, 2009, the Company announced a strategic partnership with Viking, whereby Viking, in exchange for a fee, and SinoCubate will work together and assist various business entities in the Peoples Republic of China or the PRC in their endeavors to become publicly listed companies in the United States. In connection with the strategic agreement, the Company was to newly issue 4,750,000 shares of the Company's common stock to Viking in exchange for One Hundred Thousand (100,000) shares of common stock of Renhuang Pharmaceutical, Inc. or Renhuang owned by Viking, and newly issue 15,000,000 shares of the Company's common stock to Viking in exchange for entry into the strategic partnership agreement. In connection with the foregoing transactions, Philip Wan and Yung Kong Chin were appointed directors and officers of the Company and were each granted warrants to purchase 50,000 shares of common stock of the Company at an exercise price of \$0.26 per share exercisable in whole or in part at any time during the 3 years after issuance. Effective, March 26, 2010, the parties elected to terminate the strategic partnership agreement and the directors and officers appointed thereby, Messrs. Wan and Chin, resigned as directors and officers of the Company and agreed not to exercise their warrants to purchase the Company's shares. The Company has subsequently cancelled the warrants. No shares were issued to Viking and neither the Company nor Viking has monetary or other demand on the other related to the cancellation.

No provision for income taxes has been provided in these financial statements due to the net loss for the years ended December 31, 2009. For the year ended December 31, 2008, taxes on net income was offset by the application of tax loss carryforwards. Remaining tax loss carryforward prior to the acquisition of control has not been considered as a deferred tax asset as its availability to the continuing company is uncertain. The Company has not filed its income tax returns for 2008 and 2009.

Note 8 Subsequent Event

Effective, March 26, 2010, the parties elected to terminate the strategic partnership agreement and the directors and officers appointed thereby, Messrs. Wan and Chin, resigned as directors and officers of the Company and agreed not to exercise their warrants to purchase the Company's shares. The Company has subsequently cancelled the warrants. No shares were issued to Viking and neither the Company nor Viking has monetary or other demand on the other related to the cancellation.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure.

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. Management must evaluate its internal controls over financial reporting, as required by Sarbanes-Oxley Act Section 404 (a). The Company's internal control over financial reporting is a process designed under the supervision of the Company's Chief Executive Officer and Chief Financial Officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external purposes in accordance with U.S. generally accepted accounting principles or GAAP.

As of December 31, 2009, management assessed the effectiveness of the Company's internal control over financial reporting based on the criteria for effective internal control over financial reporting established in Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission and SEC guidance on conducting such assessments. Based on that evaluation, they concluded that, during the period covered by this report, such internal controls and procedures were not effective to detect the inappropriate application of GAAP rules as more fully described below. This was due to deficiencies that existed in the design or operation of the Company's internal controls over financial reporting that adversely affected its internal controls and that may be considered to be material weaknesses.

The matters involving internal controls and procedures that the Company's management considered to be material weaknesses under the standards of the Public Company Accounting Oversight Board were: (1) lack of a functioning audit committee and lack of a majority of outside directors on the Company's board of directors, resulting in ineffective oversight in the establishment and monitoring of required internal controls and procedures; (2) inadequate segregation of duties consistent with control objectives; (3) insufficient written policies and procedures for accounting and financial reporting with respect to the requirements and application of GAAP and SEC disclosure requirements; and (4) ineffective controls over period end financial disclosure and reporting processes. The aforementioned material weaknesses were identified by the Company's chief financial officer in connection with the audit of the Company's financial statements as of December 31, 2009 and communicated the matters to the Company's management.

Management believes that the material weaknesses set forth in items (2), (3) and (4) above did not have an effect on the Company's financial results. However, management believes that the lack of outside directors on the Company's board of directors can result in oversight in the establishing and monitoring of required internal controls and procedures which can affect the process of preparing Company's financial statements.

Management believes that the appointment of one or more outside directors, who shall be appointed to a fully functioning audit committee, will remedy the lack of a functioning audit committee and a lack of a majority of outside directors on the Company's Board. In addition, management believes that preparing and implementing sufficient written policies and checklists will remedy the following material weaknesses (i) insufficient written policies and procedures for accounting and financial reporting with respect to the requirements and application of GAAP and SEC disclosure requirements; and (ii) ineffective controls over period end financial close and reporting processes. Further, management believes that the hiring of additional personnel who have the technical expertise and knowledge will result in proper segregation of duties and provide more checks and balances within the financial reporting department. Additional personnel will also provide the cross training needed to support the Company if personnel turn over issues within the financial reporting department occur. This coupled with the appointment of additional outside directors will greatly decrease any control and procedure issues the Company may encounter in the future.

Management will continue to monitor and evaluate the effectiveness of its internal controls and procedures and its internal controls over financial reporting on an ongoing basis and are committed to taking further action and implementing additional enhancements or improvements, as necessary and as funds allow.

Item 9A. Controls and Procedures.

There have been no changes in the Company's internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 or 15d-15 under the Exchange Act that occurred during the small business issuer's last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Family Relationships

There are no family relationships between any of the Company's officers and directors.

Audit Committee and Audit Committee Financial Expert

The Company does not currently have an audit committee financial expert, nor does it have an audit committee. The Company's entire board of directors handles the functions that would otherwise be handled by an audit committee. The Company does not currently have the capital resources to pay director fees to a qualified independent expert who would be willing to serve on its board and who would be willing to act as an audit committee financial expert. As its business expands and as it appoints others to its board of directors, the Company expects that it will seek a qualified independent expert to become a member of its board of directors. Before retaining any such expert the Company's board would make a determination as to whether such person is independent.

Code of Ethics

The Company has not yet formally adopted a written code of ethics to be applied to the Company's principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. Based on its small size, limited financial and human resources, the Company has not adopted written code of ethics. However, the Company expects to adopt a code of ethics as soon as practicable in fiscal 2009.

Changes in Control

To the knowledge of management, there are no present arrangements or pledges of the Company securities, which may result in a change of control of the Company.

Item 13. Certain Relationships and Related Transactions

Related Transaction

On September 22, 2008, the Company entered into an agreement with Viking, (the Company's majority shareholder which is in turn controlled by and managed by Tom Simeo, the Company's chairman, chief executive officer and president), relating to the issuance of 284,637 new shares of the Company's common stock to Viking in exchange for the release of Synthenol by Viking from an obligation to repay certain outstanding promissory notes and debt of Synthenol owing to Viking in the aggregate amount of \$270,405 (inclusive of principal and interest) as reported on a Current Report on Form 8-K filed with the SEC on September 24, 2008. The amount of the newly issued shares was determined by dividing \$270,405 by \$0.95 which price is equal to the price per share Viking paid for certain shares of Synthenol common stock pursuant to a stock purchase agreement dated as of August 15, 2008. The transaction was recorded at exchange values.

On April 3, 2009, the Company entered into an agreement with Viking, providing that effective August 15, 2008, Viking will pay for any services performed on behalf of the Company by third parties until such time that Viking is no longer the majority shareholder of the Company.

For the fiscal year ended December 31, 2009, Viking assumed professional and other service fee in the aggregate amount of \$28,004 on its own. For the fiscal year ended December 31, 2008, Viking assumed professional and other service fee in the aggregate amount of \$32,000 on its own.

On December 19, 2009, the Company announced a strategic partnership with Viking, whereby Viking, in exchange for a fee, and SinoCubate will work together and assist various business entities in the Peoples Republic of China or the PRC in their endeavors to become publicly listed companies in the United States. In connection with the strategic agreement, the Company was to newly issue 4,750,000 shares of the Company's common stock to Viking in exchange for One Hundred Thousand (100,000) shares of common stock of Renhuang Pharmaceuticals, Inc. or Renhuang owned by Viking, and newly issue 15,000,000 shares of the Company's common stock to Viking in exchange for entry into the strategic partnership agreement. In connection with the foregoing transactions, Philip Wan and Yung Kong Chin were appointed directors and officers of the Company and were each granted warrants to purchase 50,000 shares of common stock of the Company at an exercise price of \$0.26 per share exercisable in whole or in part at any time during the 3 years after issuance. Effective, March 26, 2010, the parties elected to terminate the strategic partnership agreement and the directors and officers appointed thereby, Messrs. Wan and Chin, resigned as directors and officers of the Company and agreed not to exercise their warrants to purchase the Company's shares. The Company has subsequently cancelled the warrants. No shares were issued to Viking and neither the Company nor Viking has monetary or other demand on the other related to the cancellation.

Indebtedness of Management

Other than as disclosed, there were no material transactions, series of similar transaction, current transactions, or series of similar transactions, to which the Company or any of its subsidiaries was or is to be a party, in which the amount involved exceeded \$120,000 or 1% of the Company's total assets as of December 31, 2009 and in which any director or executive officer, or any security holder who is known to the Company to own of record or beneficially more than five percent of the Company's common stock, or any member of the immediate family of any of the foregoing persons, had a material interest.

Item 14. Principal Accounting Fees and Services

1. Audit Fees
